Framo Cargo Seals now supplied in Sets

Dear Customer

SUBJECT: FRAMO SINGLE AND DOUBLE CARGO SEALS

Statistics show that these seals are changed mostly with the same service intervals, and we recommend that these seals are changed at the same time, based on following reasons:

- **Main part of the job is to open the pump.**
- **The remaining lifetime of the single cargo seal is limited when the double seal is worn out.**
- **From the purging, only the condition of the double cargo seal will be shown. The condition of the single cargo seal can only be evaluated after dismantling.**

By delivering these seals as a set, stock keeping on board will be easier, as it will be easier to identify for how many pumps you have seals in stock. One package will also take less space, and this new package is made of an environment friendly material.

The ID numbers for the various sets are:

<u>ID no.s</u>	<u>Pump types</u>
A 20887	SD-100/SVS-4
A 20888	SD-125/150/SDS-5/6/SDS-4
A 20889	SD-200/TK-150/SVS-6/SPS-8
A 20890	SD-300/SPS-10/12
A 20891	SD-350-VERSION 2-4
A 20898	SD-350-VERSION 1

For other pump types, or if you need any further assistance, please contact one of the Framo Service Stations world-wide.
